## PERSONAL STATEMENT

Android developer with 4 years of experience building Kotlin apps with Jetpack Compose, MVVM and Coroutines for retail and agritech businesses. Has released 4 apps on Google Play with a combined 8 lakh+ downloads and keeps the main app at a 99.4% crash-free user rate.

## WORK EXPERIENCE

**Android Developer** · **Kalinga Appworks Pvt Ltd, Bhubaneswar** Jan 2024 – Present

- Rebuilt the main grocery-ordering app from XML views to Jetpack Compose, reducing UI code by about 35% and speeding up feature delivery.
- Improved crash-free users from 97.8% to 99.4% by fixing issues tracked in Firebase Crashlytics and tightening null handling.
- Added offline cart support with Room and WorkManager, raising completed orders in low-network areas by 12%.
- Publish fortnightly releases through Play Console with staged rollouts and in-app update prompts.

**Junior Android Developer** · **Krishijyoti Agritech, Bhubaneswar** Aug 2022 – Dec 2023

- Developed an Odia and English farmer advisory app in Kotlin with Retrofit, used by 1.5 lakh farmers.
- Integrated Google Maps and location services for field-officer visit tracking.
- Wrote unit tests with JUnit and MockK for ViewModels and repository classes.

## EDUCATION

**B.Tech in Computer Science and Engineering** · **Mahanadi Institute of Engineering and Technology, Cuttack** 2018 – 2022
**Grade: 8.0 CGPA**

## SKILLS

Kotlin · Jetpack Compose · MVVM / Clean Architecture · Coroutines and Flow · Room · Retrofit · Hilt · Firebase
