Arjun Menon

Cloud Engineer (Azure)

arjun.menon@example.com +91 95XXX XXX21 Thiruvananthapuram, Kerala linkedin.com/in/arjun-menon-example

PERSONAL STATEMENT

Cloud engineer with 4 years of experience designing and running Microsoft Azure infrastructure for retail and healthcare clients. Hands-on with virtual networks, Azure Kubernetes Service, Terraform, Entra ID and Azure Monitor, and has migrated 150+ on-premise servers to Azure.

WORK EXPERIENCE

Cloud Engineer · **Anantha Cloud Services Pvt Ltd, Thiruvananthapuram** Feb 2024 – Present

- Migrated 150+ on-premise Windows and Linux servers for a retail client to Azure using Azure Migrate, with no unplanned downtime during cutovers.
- Built hub-and-spoke networks with Azure Firewall, VPN gateways and private endpoints across 4 subscriptions.
- Wrote reusable Terraform modules and Azure Policy rules for tagging and allowed regions, raising policy compliance from 61% to 97%.
- Cut monthly Azure spend by about 22% with reserved instances, auto-shutdown schedules and storage tiering.

Associate Cloud Engineer · **Technocity Infra Solutions, Kochi** Jul 2022 – Jan 2024

- Provisioned and supported Azure VMs, storage accounts and backups for 20+ small and mid-size clients.
- Managed users, groups and conditional access in Entra ID and closed 40+ service tickets a week within SLA.
- Automated VM start-stop and backup checks with PowerShell and Azure Automation runbooks.

EDUCATION

B.Tech in Computer Science and Engineering · **Travancore College of Engineering, Kollam** 2018 – 2022

Grade: 7.7 CGPA

SKILLS

Microsoft Azure · Azure Kubernetes Service · Terraform · Azure networking (VNet, VPN, Firewall) · Entra ID · PowerShell · Azure Monitor · Linux

CERTIFICATIONS

Microsoft Certified: Azure Administrator Associate (AZ-104) · **Microsoft**
Apr 2023

HashiCorp Certified: Terraform Associate · **HashiCorp**
Oct 2024

LANGUAGES

English · Professional

Malayalam · Native

Hindi · Conversational

CORE SKILLS

- Cloud migration
- Network design
- Cloud governance
- Cost optimisation
- Backup and disaster recovery
