Rohit Agarwal

Full Stack Developer

rohit.agarwal@example.com +91 99XXX XXX27 Jaipur, Rajasthan linkedin.com/in/rohit-agarwal-example

PERSONAL STATEMENT

Full stack developer with 5 years of experience shipping React and Node.js features for SaaS and travel-booking products. Owns work end to end across MongoDB and PostgreSQL schemas, Express and NestJS APIs, React and Next.js frontends, and AWS deployments.

WORK EXPERIENCE

Senior Full Stack Developer · **Marudhar Cloudworks Pvt Ltd, Jaipur** Apr 2023 – Present

- Lead a squad of 4 developers building a multi-tenant HR and payroll SaaS used by 1,200+ small businesses.
- Rebuilt the onboarding flow in Next.js with server-side rendering, lifting the Lighthouse performance score from 54 to 91 and trial sign-ups by 18%.
- Designed NestJS APIs and PostgreSQL schemas for leave and attendance modules handling 3 lakh records a month.
- Set up CI/CD on GitHub Actions with automatic deploys to AWS ECS, reducing release time from half a day to 25 minutes.

Software Developer · **Tripvana Technologies, Jaipur** Jun 2021 – Mar 2023

- Built hotel search and booking pages in React with Redux and integrated 3 third-party inventory APIs.
- Developed Express.js and MongoDB services for coupons and refunds, handling peaks of 900 bookings an hour during festive sales.
- Added Jest and React Testing Library tests to checkout components, cutting production bugs in the module by about 40%.
