Projects

Clinic Appointment and Billing System · Team lead (2 members) Jul 2025 – Nov 2025

MCA major project built with ASP.NET Core MVC and SQL Server.

- Implemented doctor slot booking, reminder queues and GST invoice generation for a 3-doctor clinic.
- Used ASP.NET Identity for role-based access across admin, doctor and reception users.

Student Bus Pass Renewal Portal · Mini project Feb 2025 – Apr 2025

Angular front end with a .NET Web API back end for renewing city bus passes.

- Reduced renewal to 4 steps with document upload, payment status and pass download.

Skills

C# · ASP.NET Core · Entity Framework Core · SQL Server · Angular · TypeScript · REST APIs · Git

Work experience

Software Developer Intern (.NET) · Narmada Softlabs Pvt Ltd, Indore Jan 2026 – Jun 2026

- Developed 11 REST endpoints in ASP.NET Core and Entity Framework for a shipment-tracking module used by 40 transport clients.
- Wrote SQL Server stored procedures that cut the daily delivery report runtime from 4 minutes to 35 seconds.
- Built 6 Angular screens for consignment booking with reactive form validation.
- Added 70 xUnit tests and fixed 25 bugs logged during sprint testing.
