Patna, Bihar

Personal statement

OT technician with 7 years of experience supporting general, orthopaedic, laparoscopic and gynaecology surgeries in a 6-theatre hospital. Skilled in anaesthesia workstation checks, laparoscopy tower and C-arm setup, patient positioning and CSSD sterilisation, with a strong focus on the WHO surgical safety checklist and infection control.

Certifications

Basic Life Support (BLS) Provider · AHA-authorised training centre — May 2025

Infection prevention and control training · Hospital infection control committee — Aug 2024

Work experience

Senior OT Technician · Pataliputra Surgical and Multispeciality Hospital, Patna — Feb 2021 – Present

- Support 120–140 surgeries a month across 6 theatres, preparing instruments, equipment and anaesthesia workstations before each list.
- Set up laparoscopy towers, electrosurgical units and C-arm for orthopaedic and laparoscopic cases, reducing equipment-related delays by 30%.
- Assist anaesthetists with intubation, airway equipment, monitoring and patient positioning, including prone and lithotomy positions.
- Coordinate with CSSD on autoclave loads, Bowie-Dick tests and biological indicators; the OT had zero surgical site infection clusters in the last NABH cycle.

OT Technician · Gaya City Hospital, Gaya — Jul 2019 – Jan 2021

- Prepared theatres for general surgery, caesarean sections and emergency trauma cases on rotating and night shifts.
- Maintained OT registers, consumables stock and implant records for orthopaedic cases.
- Cleaned and fumigated theatres as per protocol and handled biomedical waste segregation.

Education

Diploma in Operation Theatre Technology · Paramedical Institute affiliated to the state paramedical council, Patna — 2017 – 2019
Grade: 72%
