## PERSONAL STATEMENT

Python developer with 3 years of experience building Django and FastAPI services for lending and B2B inventory products. Works daily with PostgreSQL, Celery, Redis, Docker and pytest, and has shipped APIs used by about 2 lakh customers a month.

## WORK EXPERIENCE

**Python Developer** · **Sahyadri Finserv Technologies Pvt Ltd, Pune** Aug 2024 – Present

- Built 9 FastAPI services for a digital lending app covering KYC checks, loan eligibility and EMI schedules for about 2 lakh monthly users.
- Moved PDF statement generation to Celery workers with Redis, cutting customer wait time from 11 seconds to under 2 seconds.
- Wrote pytest suites with factory fixtures, taking coverage on the loans module from 52% to 86%.
- Containerised services with Docker and set up GitHub Actions pipelines that run tests and linting on every pull request.

**Associate Software Engineer** · **Vedanshi Softlabs, Pune** Jul 2023 – Jul 2024

- Developed Django REST Framework APIs and admin dashboards for a B2B inventory product used by 300+ distributors.
- Automated daily GST invoice reconciliation with pandas scripts, saving the finance team about 6 hours a week.
- Optimised ORM queries with select_related and new indexes, reducing report load time by 60%.

## EDUCATION

**B.E. in Information Technology** · **Indrayani Institute of Technology, Pune** 2019 – 2023

**Grade: 8.4 CGPA**

## SKILLS

Python 3 · Django · FastAPI · Django REST Framework · PostgreSQL · Celery / Redis · Docker · pytest

## CERTIFICATIONS

**PCAP – Certified Associate Python Programmer** · **Python Institute**
Mar 2023

## LANGUAGES

English · Professional

Marathi · Native

Hindi · Fluent

## CORE SKILLS

- REST API design
- Asynchronous tasks
- Unit testing
- Query optimisation
- Code reviews
