PERSONAL STATEMENT

Technical writer with 3 years of experience writing API documentation, user guides, admin manuals and release notes for B2B SaaS and enterprise software. Works in a docs-as-code setup with Markdown, Git and Docusaurus, and collaborates with engineers and product managers to ship documentation with every release.

WORK EXPERIENCE

Technical Writer · Sahyadri Cloudworks Pvt Ltd, Pune — May 2024 – Present

- Own documentation for 3 modules of a logistics SaaS platform, including 120+ REST API endpoints documented from OpenAPI specifications.
- Moved the help centre from an internal wiki to a docs-as-code site on Docusaurus and GitHub, cutting publishing time from 2 days to under 1 hour.
- Rewrote the customer onboarding guide after analysing support tickets; "how do I" tickets dropped by 31% over two quarters.
- Write release notes for fortnightly releases and maintain the team style guide and terminology list.

Associate Technical Writer · Inkline Documentation Services, Pune — Jan 2023 – Apr 2024

- Wrote installation guides, admin manuals and FAQs for 2 enterprise clients in manufacturing and healthcare software.
- Created 40+ annotated screenshots and short how-to videos with Snagit and Camtasia.
- Ran peer reviews and kept terminology consistent across 600+ pages of client documentation.
